

## Introduction: Nuclear Chemistry

**Unit:** Nuclear Chemistry

**Topics covered in this chapter:**

Radioactive Decay.....	166
Nuclear Equations.....	171
Mass Defect & Binding Energy.....	174
Half-Life.....	176
Nuclear Fission & Fusion.....	179
Practical Uses for Nuclear Radiation.....	182

**Standards addressed in this chapter:**

**Massachusetts Curriculum Frameworks & Science Practices (2016):**

The Nuclear Chemistry unit is not included in the NGSS standards for high school chemistry. Massachusetts moved the topic to the high school physics course, which means this unit may be omitted from a chemistry course that is intended to follow the 2016 Massachusetts Curriculum Frameworks.
