

## Introduction: Nomenclature & Formulas

**Unit:** Nomenclature & Formulas

**Topics covered in this chapter:**

Bonding .....	248
Chemical Formulas.....	250
Balancing Charges .....	251
Polyatomic Ions.....	255
Naming Ionic Compounds.....	258
Naming Oxyanions .....	262
Naming Acids .....	265
Naming Molecular (Covalent) Compounds.....	267

**Standards addressed in this chapter:**

**Massachusetts Curriculum Frameworks & Science Practices (2016):**

**HS-PS2-6** Communicate scientific and technical information about the molecular-level structures of polymers, ionic compounds, acids and bases, and metals to justify why these are useful in the functioning of designed materials.
