

## Introduction: Solutions

**Unit:** Solutions

**Topics covered in this chapter:**

Solutions & Dissolution.....	333
Solubility .....	340
Concentration (Molarity) .....	347
Colligative Properties.....	352

**Standards addressed in this chapter:**

**Massachusetts Curriculum Frameworks & Science Practices (2016):**

**HS-PS1-11(MA)** Design strategies to identify and separate the components of a mixture based on relevant chemical and physical properties.

**HS-PS2-7(MA)** Construct a model to explain how ions dissolve in polar solvents (particularly water). Analyze and compare solubility and conductivity data to determine the extent to which different ionic species dissolve.
