

Laboratory Experiment Rubric Physics

Teacher Use Only	
Total score:	
Possible score:	50
Grade:	

Name: _____ Period: _____

Experiment: _____ *Five Second Timer*

As you write up your experiment, mark the boxes and blanks in the *student* (st) column () for each item you believe you have done correctly. (If you think you left something out or didn't do it correctly, *don't* check the box for it.) Note that not all checkboxes apply to all experiments. The teacher will mark the checkboxes in the left (tc) column and the totals for each section. Give some thought to this process—you get points for accurate assessment of your work!
